part 1: The date and time at which you already completed this demo, and briefly describe any challenges that arose during the demo.

part 2: A link to the github repository where your entire codebase resides. Tag which file revisions were shown in the demo.

part 3: A link to the folder in your repository that includes all your prose submissions thus far for this course.

Part 1:
Time of the demo with Asif:
9:40 PM EST, Monday November 23

Challenges arose:
We had a feature that we had accidentally turned off at first (the presence of the emails underneath the avatars). That we had to turn on again during the demo for presentation purposes. Also, the font is a little hard to read. There are also some functionalities in our proposal that we are still working on, but have not included in the demo, such as profanity checking. We will work on these improvements for the second iteration.

Part 2: Github repository:

File revisions were shown in the demo:
https://github.com/WilliamChiu/ASE-Team-Project/releases/tag/1.0-alpha

Part 3:
Prose submissions
